Hospice of Southern Illinois, Inc.

Hospice of Southern Illinois celebrates November as National Hospice and Palliative Care Month. Throughout November, we will be joining nationwide organizations hosting community activities in recognition of National Hospice and Palliative Care Month.

For more than 40 years, hospice has helped provide comfort and dignity to thousands of people, allowing them to spend their final months wherever they call home, surrounded by their loved ones. Hospices ensure that pain management, therapies, and treatments all support a care plan centered on the person's goals. Hospice care also provides emotional support and advice to help family members become confident caregivers and adjust to the future with grief support for up to a year.
